MEMORANDUM OF UNDERSTANDING

BETWEEN

MONMOUTH COUNTY S.P.C.A.

AND

CITY OF LONG BRANCH

FOR

TRAP, NEUTER AND RELEASE PROGRAM

WHEREAS, the Monmouth County S.P.C.A, being a duly authorized animal shelter under the authority of New Jersey State Law Title 4, and having such authority within the County of Monmouth to act as so, shall enter into a "Memorandum of Understanding (MOU)" for a "Trap, Neuter and Release (TNR)" program with the City of Long Branch, being a duly authorized Municipality within the County of Monmouth.

WHEREAS, the Monmouth County SPCA shall assume the role as the approved sponsor for the TNR program within the City of Long Branch and shall set forth the requirements for this program which shall be listed in this MOU.

WHEREAS, the Monmouth County SPCA shall provide the City of Long Branch with a certificate of insurance naming the City of Long Branch as additionally insured.

The following guidelines shall be set forth and be agreed upon by both the Monmouth County SPCA and the City of Long Branch.

I. Monmouth County SPCA sponsorship requirements:

- Review and approve colony caregivers
- Schedule surgical dates for all TNR activities
- Maintain records provided by colony caregivers
- Maintain all medical records
- Set TNR standards and guidelines
- Be responsible with the Township for humanely trapping, neutering, vaccinating and spaying or neutering of feral cats

(2)

II. The established fee to TNR a feral cat for this program shall be \$75.00. The City of Long Branch shall be responsible for \$37.50 of this cost while the Monmouth County SPCA shall be responsible for \$37.50. The fee for this program shall include the neutering, ear tip, rabies vaccination, micro-chip and blood test for each cat. The Monmouth County SPCA shall bill the City of Long Branch monthly with a detailed list of activities. There shall be a limit of 100 cats per year under this program. The limit can be extended after 100 cats with the agreement of both parties in writing.

III. The Monmouth County SPCA shall designate a member of the SPCA to serve as the TNR representative for the program and shall coordinate all TNR activities with a City of Long Branch appointed designate. The appointed Township designate and the appointed SPCA designate shall maintain an open channel of communications with Township Officials as well as Monmouth County SPCA Officials.

IV. The Monmouth County SPCA, the City of Long Branch Animal Control Officer and approved caregivers shall coordinate the transportation, to and from the Monmouth County SPCA for the purpose of this TNR program.

This memorandum of understanding may be canceled by either party. A thirty (30) day notice of cancelation must be provided by the canceling party.

RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A DISCHARGE OF MORTGAGE FOR VINCENT ANNELO, BRUNA ANNELO AND ANNA PATRONELL FOR PREMISES KNOWN AS 62 MORRIS AVENUE IN THE CITY OF LONG BRANCH, NEW JERSEY

WHEREAS, Vincent Anello, Bruna Anello and Anna Patronell, are owners of premises known as 62 Morris Avenue in the City of Long Branch; and

WHEREAS, on February 10, 1998, as part of the City of Long Branch, RCA program, issued a mortgage to the property owners, Vincent Anello, Bruna Anello and Anna Patronell, in the amount of \$18,735.00, and

WHEREAS, pursuant to a request of the City of Long Branch, Office of Community Development, through Tonya Y. Medina, Housing Technician, on September 27, 2017, the Office of Community Development indicates that all requirements of the mortgage have been met as set forth in the mortgage loan documents and as a result the mortgage should be discharged of record; and

WHEREAS, the matter has been reviewed by the City attorney's office and as a result of that review, the City Attorney concurs with the recommendation of the Office of Community Development;

BE IT RESOLVED that the Mayor of the City of Long Branch be and the same hereby is authorized to execute a Discharge of Mortgage for premises known as 62 Morris Avenue, owned by Vincent Anello, Bruna Anello and Anna Patronell for a mortgage in the amount of \$18,735.00, made on February 10, 1998 and recorded on February 25, 1998 in Book MB-6393, Page 479.

RESOLUTION #244-17

**RESOLUTION STATE OF NJ DOT
IMPROVEMENTS TO BRANCHPORT AVENUE PHASE II**

WHEREAS, the State of New Jersey, Department of Transportation has notified all municipalities of the availability of funding under the Transportation Trust Fund Municipal Aid Program for the Fiscal Year 2018; and

WHEREAS, the City of Long Branch is desirous of submitting a *priority one* application under this program for the following purpose:

- Improvements to Branchport Avenue Phase II from Joline Avenue (NJ State Highway Route 36) to Harrison Street

NOW, THEREFORE, BE IT RESOLVED by the City Council of Long Branch, County of Monmouth, State of New Jersey, formally approves the grant application for the above stated project; and

FURTHER BE IT RESOLVED that the City Engineer, Mayor and City Clerk are hereby authorized to submit an electronic grant application identified as MA-2018-Branchport Avenue Phase II-00263 to the New Jersey Department of Transportation on behalf of the City of Long Branch; and

FURTHER BE IT RESOLVED that the Mayor and City Clerk are hereby authorized to sign the grant agreement on behalf of the City of Long Branch and that their signatures constitute acceptance of the terms and conditions of the grant agreement and approves the execution of the grant agreement.

My signature and the Clerk's seal serve to acknowledge the above resolution and constitute acceptance of the terms and conditions of the grant agreement and approve the execution of the grant agreement as authorized by the resolution above.

Scope of Work

Please provide description for Scope of Work:

Branchport Avenue is a North-South two lane urban collector road within the City of Long Branch. It provides access to the commercial district on Broadway and connects with access to Joline Avenue (NJDOT Route 36), Broadway (Monmouth County Route 537), and Norwood Avenue (Monmouth County Route 25). The roadway primarily serves city residents and residents of the Boroughs of Monmouth Beach and West Long Branch. The sidewalks are heavily used by the children and families for walking to the residences, parks and downtown shopping (Broadway, Long Branch) within the area. The City of Long Branch is an Urban Aid Municipality with approximately 18.7% of the residents below the poverty level.

The Coastal Evacuation Plan has indicated New Jersey State Highway Route 36 (Ocean Avenue/Coastal Evacuation Route) as a transportation issue through the Borough of Monmouth Beach and Northern portion of Long Branch. The roadway provides direct access to the NJ Transit Train Station at Monmouth Park. The Coastal Monmouth Plan has indicated potential additional daily traffic to increase within the City by 30,796. Likewise, the Summer Coastal Population Study estimates the summer daytime population increases about 73% over the regions year round population (US 2010 Census 30,719 residents plus surrounding municipalities). Improvements for the project area are key to address future and summer daily trip demands.

The road has areas of moderate to severe pavement deterioration, including widespread surface distress cracks and sunken pavement. Utility trenches have also accelerated the deterioration of the pavement surface. Wear due to age, a salt air environment and salting in the winter months have also contributed to the deterioration of this section of the road. These conditions pose a safety hazard for the motorists.

The City is proposing to mill the existing roadway along the concrete curb line and pave 2" thick surface course. Areas of pavement with poor subgrade will be excavated and stabilized with new base material prior to surface course overlay. At each intersection, handicap ramps will be replaced and brought to current ADA standards. Where conditions are poor, segments of concrete curb and sidewalk will be replaced. Additionally, the project

Scope Of Work

MA-2018-Branchport Avenue Phase II-00263

txtScopeWork continued

proposes drainage improvements to address roadway flooding and roadway ponding issues. incidental work will include resetting utility castings and restoration of areas disturbed by construction. The improvements will satisfy NJDOT design standards.

For this project, as with all paving projects constructed within the City, all work will be coordinated with the respective utility companies to insure that utility restoration or relocation will be implemented prior to commencement of construction. The City, under ordinance 297-49.1, will implement a five year moratorium on any utility work to protect roadway surface from unnecessary repair or opening.

MONMOUTH COUNTY

SUMMER COASTAL POPULATION STUDY

Produced by the Monmouth County Planning Board

1967

EXECUTIVE SUMMARY

The staff of the Monmouth County Planning Board undertook a study to estimate the population of the Monmouth Shore Region during the summer when populations are at a significant peak as visitors are drawn to the area's beaches, marinas, shore line restaurants, and other attractions. Summer population, for purposes of this study, includes year-round residents, overnight visitors, and daytrippers. The immediate reason for this study was to support emergency and non-emergency transportation planning, and in particular the Monmouth County Coastal Evolution Fluctuation Impact Study. The Shore Region includes the County's Coastal and Bayshore Planning Regions, as well as portions of the County's Central Region.

Using a methodology based principally on differences between winter and summer water-use rates, the average daytime population of the Shore Region during the summer was determined to be approximately 761,528; this includes the year-round permanent population of 430,331, as well as overnight visitors and daytrippers. In other words, the average summer daytime population increases about 79% over the region's year-round population. As this estimate represents an average of all days, including weekends and holidays, the population on non-holiday weekdays would be somewhat lower than this average figure and the population on weekends and holidays would be higher than the average figure.

The peak summer daytime population of the Shore Region of Monmouth County, which is only estimated on some weekends and holidays, was determined to be approximately 907,854, an increase of about 107% over the region's year-round population. This estimate of 907,854 includes the year-round permanent population of 430,331, as well as overnight visitors and daytrippers.

Following is a summary table of the estimated summer population of Monmouth County's Shore Region.

Coastal Area Population

	Avg. Day Population	Peak Day
Year-round population	430,331	430,331
Day Visitors	234,561	322,787
Non-Work Day Visitors	13,581	23,000
Overnight Visitors	74,072	110,026
TOTAL	761,528	907,854

Please identify the approximate location in the box below.

Branchport Avenue is a heavily traveled North-South roadway. Branchport Avenue serves the community's residential area within the City of Long Branch. It provides access to branchport Park and boat launch to the north and Long Branch commercial district to the south. It provides direct to county coastal evacuation route and the train station at Monmouth Park.

Located within 1/2 mile from the project limits are Monmouth Park Racetrack, Branchport Park, Long Branch Housing Authority, Kelly' Landing Marina, Manahasset Park, Pleasure Bay Park, Long Branch Recreation Department, Long Branch Business District and two elementary schools.

Traffic Control Device

Drainage Improvements (increase capacity/new drainage)

Branchport Avenue has moderate to severe pavement deterioration, including widespread surface distress cracks due to heavy traffic, worn striping and patchy utility trench repairs, all of which create a rough travel surface and allow puddles to form. These conditions pose a safety hazard for vehicular and bicycle traffic.

The proposed paving improvements will provide a smooth and stable roadway surface which will increase safety for motorists and bicyclists. The smooth pavement surface will also enable efficient movement of storm water from the roadway to drainage inlets, will prevent standing water and minimize the effects of freeze/thaw cycles. Additionally, the handicap ramp improvements will eliminate uneven surfaces and allow access in compliance with ADA Regulations.

RESOLUTION #245-17

RESOLUTION STATE OF NJ DOT
IMPROVEMENTS TO SIDEWALK IMPROVEMENTS TO
PROSPECT STREET, EXCHANGE PLACE & DIVISION STREET

WHEREAS, the State of New Jersey, Department of Transportation has notified all municipalities of the availability of funding under the Transportation Trust Fund Municipal Aid Program for the Fiscal Year 2018; and

WHEREAS, the City of Long Branch is desirous of submitting a *priority two* application under this program for the following purpose:

- Improvements to Sidewalk Improvements to Prospect Street, Exchange Place and Division Street

NOW, THEREFORE, BE IT RESOLVED by the City Council of Long Branch, County of Monmouth, State of New Jersey, formally approves the grant application for the above stated project; and

FURTHER BE IT RESOLVED that the City Engineer, Mayor and City Clerk are hereby authorized to submit an electronic grant application identified as MA-2018-Sidewalk Improvements to Prospect St-00560 to the New Jersey Department of Transportation on behalf of the City of Long Branch; and

FURTHER BE IT RESOLVED that the Mayor and City Clerk are hereby authorized to sign the grant agreement on behalf of the City of Long Branch and that their signatures constitute acceptance of the terms and conditions of the grant agreement and approves the execution of the grant agreement.

My signature and the Clerk's seal serve to acknowledge the above resolution and constitute acceptance of the terms and conditions of the grant agreement and approve the execution of the grant agreement as authorized by the resolution above.

Scope of Work

Please provide description for Scope of Work:

The City of Long Branch would like to address safety and pedestrian sidewalk area on Division Street, Exchange Place and Prospect Avenue.

The roadways serves as a pedestrian link to Morris Avenue Elementary School, Holy Trinity Church and the Holy Trinity School. The average median income within the project area is approximately \$37,000 a year. The sidewalks are heavily used by children, families and public transit users for walking to residences, parks and public transportation areas. The City of Long Branch is an Urban Aid Municipality with approximately 18.7% of the residents below the poverty level.

The project is within 1/2 mile radius of the NJTransit Station and is part of the City's Transit Village Area and Urban Enterprise Zone. The Coastal Monmouth Plan has indicated potential additional daily traffic to increase within the City by 30,796. Likewise, the Summer Coastal Population Study estimates the summer daytime population increases about 73% over the regions year round population (US 2010 Census 30,719 residents plus surrounding municipalities). Improvements for the project area are key to address future and summer daily trip demands and pedestrian safety.

In addition to safety, the project will encourage children to walk and/or ride their bicycles to school. New sidewalks, highly visible crosswalks, pavement markings, and bicycle/ pedestrian signage will encourage use of the project. Developing an active lifestyle and creating friendships among children is an important aspect to both young people and the community. The medical profession acknowledges that sports and lessons such as dance and karate are ways children get physical activity, however parents should check the quality of such organized activities. Children should be active 50 percent of the time, which many organized programs do not meet that goal. Studies have shown walking is the best type of exercise. Providing safe walkways will encourage children to walk/bicycle to school, thus developing healthy habits of routine exercise and discipline thereby causing reduced childhood obesity, improved health, decreased traffic congestion, improved air quality and reduced the danger of walking with the roadway or along an unsafe path.

Scope Of Work

MA-2018-Sidewalk Improvements to Prospect St-00560

txtScopeWork continued

The sidewalks located along these roadways are badly cracked and deteriorated creating a hazardous walking surface. Such conditions can cause accidents like tripping or getting injured by sharp edges and bumps on the sidewalks. Moreover, since children usually walk in groups, poor walkways usually force children to walk in the roadways making their trip to schools dangerous. The proposed improvements will provide a smooth and safe surface for the students traveling to school, church goers and local residents residents passing through the area to the NJTransit Station.

The existing curb ramps are not in compliance with ADA standards making travel more difficult and dangerous for people in wheelchairs. The proposed improvements will allow the sidewalks to be easily and safely accessed by handicapped individuals.

MONMOUTH COUNTY

SUMMER COASTAL POPULATION STUDY

Prepared by the Monmouth County Planning Board
November 2008

EXECUTIVE SUMMARY

The staff of the Monmouth County Planning Board undertook a study to estimate the population of the county's Shore Region during the summer when population increases significantly as visitors are drawn to the area's beaches, marinas, shoreline restaurants, and other attractions. Summer population, for purposes of this study, includes year-round residents, overnight visitors, and daytrippers. The immediate reason for this study was to support emergency and non-emergency transportation planning, and in particular a Monmouth County, Coastal Evacuation Routes Improvement Study. The Shore Region includes the county's Coastal and Bayshore Planning Regions, as well as portions of the county's Central Region.

Using a methodology based principally on differences between winter and summer wastewater flows, the average daytime population of the Shore Region during the summer was determined to be approximately 762,000; this includes the area's year-round, permanent population of 439,331, as well as overnight visitors and daytrippers. In other words, the average summer daytime population increases about 73% over the region's year-round population. As this estimate represents an average of all days, including weekends and holidays, the population on non-holiday weekdays would be somewhat lower than this average figure and the population on weekends and holidays would be higher than the average figure.

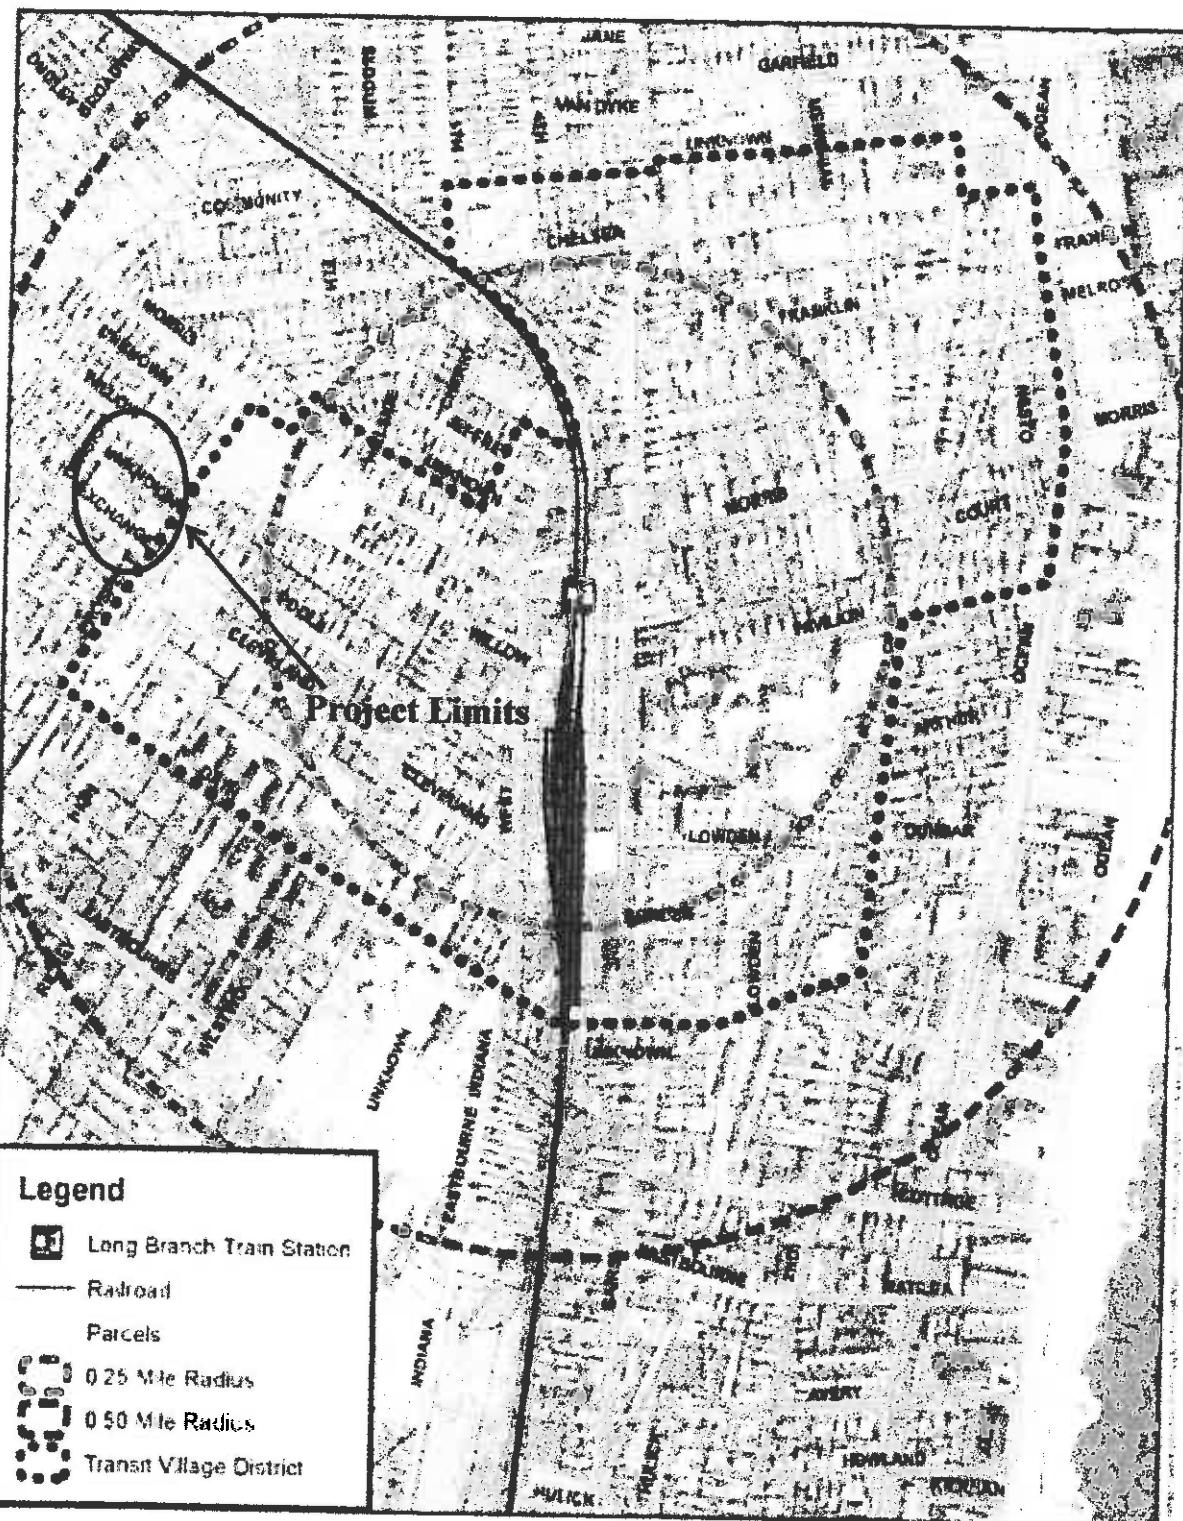

The peak summer daytime population of the Shore Region of Monmouth County, which is only attained on some weekends and holidays, was determined to be approximately 907,000, an increase of about 107% over the region's year-round population. This estimate of 907,000 includes the area's year-round, permanent population of 439,331, as well as overnight visitors and daytrippers.

Following is a summary table of the estimated summer population of Monmouth County's Shore Region.

Coastal Area Population

	Average Summer Day	Peak Summer Day
Permanent Population	439,331	439,331
Day Trippers	234,561	333,497
Sandy Hook Day Trippers	13,564	23,000
Overnight Visitors	74,072	112,026
TOTAL	761,526	907,000

**Re: FY 2018 Transportation Trust Fund
Sidewalk Improvements
City of Long Branch
Applications for State Aid Funding
Our File LB 18-08**

Dear Mr. Hayes:

Our office has prepared a priority two funding application for Sidewalk Improvements under the NJDOT Transportation Trust Fund Authority Act. One (1) copy of the application is attached. The application has been filed electronically thru NJDOT SAGE website.

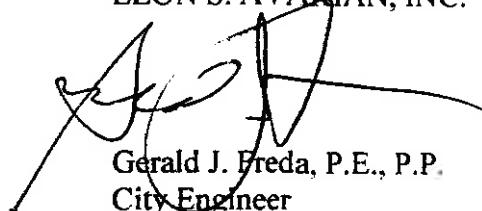

The City's request for state funding is \$98,750.00 for Sidewalk Improvements. The work will include ADA sidewalk compliance and traffic markings. This funding request does not include improvements to sanitary sewer, water system and utilities within the project limits, as the NJDOT does not fund these types of improvements.

Included within the application packet is a resolution which should be placed on the next Council's meeting agenda for approval. After the adoption of this Resolution, please return three (3) signed and sealed copies to our office so that we can submit to the NJDOT.

If you have any questions regarding this matter, please do not hesitate to call our office.

Very truly yours,

LEON S. AVAKIAN, INC.

BODY ARMOR REPLACEMENT PROGRAM GRANT
\$7,650.71

WHEREAS, N.J.S.A. 40A:4-87 provides that the Director of the Division of Local Government Services may approve the insertion of any item of revenue in the budget of any county or municipality when such item shall have been made available by law and the amount thereof was not determined at the time of the adoption of the budget, and;

WHEREAS, said Director may also approve the insertion of an item of appropriation for an equal amount;

NOW THEREFORE BE IT RESOLVED that the City Council of the City of Long Branch hereby requests the Director of the Division of Local Government Services to approve the insertion of a special item of revenue in the budget for the year 2017 in the amount of \$7,650.71 which item is now available from the State of New Jersey, Department of Law and Public Safety, Division of Criminal Justice, Body Armor Grant Fund, and,

BE IT FURTHER RESOLVED that a like sum of \$7,650.71 is hereby appropriated under the caption of:

State of New Jersey
Department of Law & Public Safety
Division of Criminal Justice
Body Armor Replacement Program \$7,650.71

BE IT FURTHER RESOLVED that the Chief Financial Officer forward an electronic copy of the required Department of Community Affairs form requesting permission for the inclusion of the above referenced items.
