**1. To what specific target areas and/or specific assignments will the Safe and Secure funded officers be assigned:**

The Safe and Secure Communities Program Officers, in addition to standard patrol duties, are assigned to perform community-policing functions within the City of Long Branch. The City of Long Branch happens to have a sizable undocumented population. Corporal DeLaCruz's ability to communicate and relate to member of Hispanic community is critical to our law enforcement efforts. This is particularly important in light of the anonymity and insulation from law enforcement, associated with illegal immigrant's status. This is true in cases wherein these individuals are victims, witnesses or potential suspects.

Corporal Graziano, in addition to his knowledge of and relationships with the community has forged a close relationship with the all segments of the community. We have had persistent difficulties associated with undocumented members of these communities violating the provisions of New Jersey motor vehicle laws, with respect to false documents and falsely obtained registrations. It constitutes a widely recognized issue for our department. Corporal Graziano was born and raised in this community and has maintained several important relationships since early childhood which have assisted our agency in resolving several crimes and quality of life issues.

**2. List SPECIFIC problems and proposed strategies that the Safe and Secure Communities Grant funded officers will employ to reduce crime:**

In cultivating and enhancing our department's knowledge and relationships with our largely illegal Central and South American populations, our Safe and Secure Communities Program funded Officers provide a vital function, with respect to public safety in the City of Long Branch. By and large, law enforcement solves crimes because law enforcement either is familiar with the participants or has "informants" within the participant's community. When dealing with illegal populations, who by virtue of their status, are insulated from law enforcement generating specific individual relationships between police officers and civilians is a critical element in our investigations. Corporal DeLaCruz and Graziano have both been very successful in this regard and have enhanced our department's ability to address the issue of crime in our jurisdiction.

Corporal DeLaCruz is currently assigned to the patrol division. He continues to live in the community he serves, because of this there is tremendous interaction with the community. Corporal DeLaCruz is well-liked member of this agency among both his co-workers and the community at large. He speaks English as well as Spanish fluently and his translations have been instrumental in numerous investigations. He continues to willfully assist with translations for other agencies including municipal court and surrounding jurisdictions.

Corporal Graziano is currently assigned to the patrol division, Urban Enterprise Zone and has served with distinction. Corporal Graziano continues to be one of the most active officers in creating and maintaining community partnerships. He is the departments lead officer in creating relationships with the business owners in the city and has done a fantastic job identifying problems prior to them becoming a public safety issue.
